Mr. Pavan

Item Banking Case Study: Managing 200+ Subjects in 38+ Languages

- **Challenge**: 200+ subjects, 38+ languages. Physical sign-offs and separate online/offline publishing lines.

- **Solution**: Item Banking served as a single source of truth with governed workflows and role-based handoffs.

- **Result**: Same approved paper exports to both online and offline exam formats without divergence.

- **Impact**: Shift from crisis-driven heroics to reliable, scalable exam management.
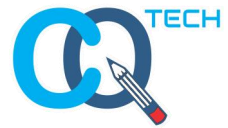

Item Banking Case Study: Collaboration Without Borders

- 400 contributors, 600 papers across thousands of kilometers.

- Item Banking in the **cloud** — eliminating office visits & logistics costs.

- **AI-powered** duplicate detection prevented redundancy and saved review time.

- Built-in ticketing system + phone based **instant support**.

- **Result**: Seamless coordination, real-time dashboards, and higher confidence in final papers.
